

We're seeking a talented Front-End Software Developer with 2-4 years of experience to join our team. You'll be primarily responsible for developing user-facing features and ensuring the performance, responsiveness, and scalability of our web applications using React.js and Next.js.

Responsibilities:

- Develop new user-facing features using React.js and Next.js
- Build reusable components and front-end libraries for future use
- Optimize components for maximum performance across a vast array of web-capable devices and browsers
- Collaborate with back-end developers and web designers to improve usability
- Translate designs and wireframes into high-quality code
- Ensure the technical feasibility of UI/UX designs
- Optimize application for maximum speed and scalability
- Stay up-to-date with emerging technologies and industry trends

Requirements:

- Bachelor's degree in Computer Science, Engineering, or a related field
- 2-4 years of professional experience as a Front-End Developer
- Strong proficiency in React.js and Next.js
- Experience with popular React.js workflows (such as Flux or Redux)
- Familiarity with RESTful APIs
- Knowledge of modern authorization mechanisms, such as JSON Web Token
- Familiarity with code versioning tools, such as Git
- Excellent problem-solving skills and attention to detail
- Good communication and teamwork skills

Bonus Skills:

- Experience with GraphQL
- Knowledge of server-side rendering and Node.js
- Familiarity with front-end build tools, such as Webpack or Babel
- Experience with testing frameworks (e.g., Jest, Enzyme)
- Understanding of SEO principles and ensuring that application will adhere to them
